

Teamline 5140 Installation Sheet

Important: Connect all other cables before connecting the power

- | | | |
|---|------------|--|
| 1 | Power | Use the supplied power cable to connect the system to the A DC +19V power connector |
| 2 | Display 1 | Use the mini display connector to output video (1080p60 only) to the display |
| 3 | Network | Connect the Ethernet cable to the network |
| 4 | Microphone | Connect the StarLeaf microphone to the USB connector |
| 5 | Display 2 | Use these mini display connectors to output video (1080p60 only) to a second display, if present |
| 6 | USB 2.0 | If you are using a static USB camera, connect the camera cable to one of the USB 2.0 connectors |
| 7 | USB 3.0 | If you are using a PTZ USB camera, connect the camera cable to the USB 3.0 connector |

Connect the Ethernet cable to the PoE Network port on the StarLeaf Touch, then connect the cable to an Ethernet switch on your network
